Our Vegetable Seed Outlook For 1944

Much satisfaction and food was produced from last year's Victory Gardens. The need for planting Vegetable Seeds this season is equally as important. Arrange to plant all you can take care of; buy only seed that you require, cultivate thoroughly so as to produce as much food as possible. No seeds should be wasted. We have provided a good supply of our usual high quality seed, even though some individual varieties are short crop, but we expect to have sufficient seed to take care of the needs of Victory and Market Gardeners. Our prices on this list are less than ceiling.
